The above 5 members of the Barrington Trails Committee met at Stephen Jeffery's property in order to take a "reconnaissance hike" on the existing trails on the property. Existing trail maps were provided and Charlie, using a GPS system, further mapped the appropriate mileage of each trail as well as any trails that had not been mapped previously. Marika noted sights of interest on the trails such as the Sacred Site of specifically placed stones, a very large Glacial Erratic Boulder, the log landing area, and an old dump site which are all to be appropriately noted on the new trail map and ultimately to be placed on the BCC's website with further information also for potential hikers.

The Reconnaissance Trail Hike / Trails Committee Meeting ended at 3:30 p.m.

Respectfully submitted,
MARIKA WILDE
